

Star Inflatables Instructions

FOLDING & TRANSPORTING INSTRUCTIONS

Fold the side tubes to the middle of the boat so that the whole boat is as wide as the thwart. Roll forward. This will help to get the air out. Be sure all valves are in the open position. Continue rolling forward as compactly as possible. Secure with a strap or place in a carry bag for easy transportation. Be sure to protect your boat from rubbing against hard or sharp objects during transportation by wrapping in plastic or canvas as friction can wear a hole through material.
